

Panel: FIRE challenges, session 2

Industrial perspectives and expectations from FIRE

Moderator: Mário Campolargo

Acting Director, Emerging Technologies and Infrastructures, EC

Introductions:

- **David Kennedy (Eurescom)**
- **Steve Wright (BT)**
- **Marcin Pilarski (Polish Telecom)**

FIRE Launch Event, Paris 10 September 2008

Points to be discussed (initial suggestions)

- Emerging services and applications (e.g. social networks)
- Commercial applications, new business opportunities: what need for testing in FIRE
- Sharing content and losing privacy: economic and social consequences
- After the mobile-fixed convergence in internet access: what will be next in technology
