# Public transportation in Paris

Information telephone center: +33 8 92 69 32 46

In Paris, you can take metro, bus, RER (train) and tramway.

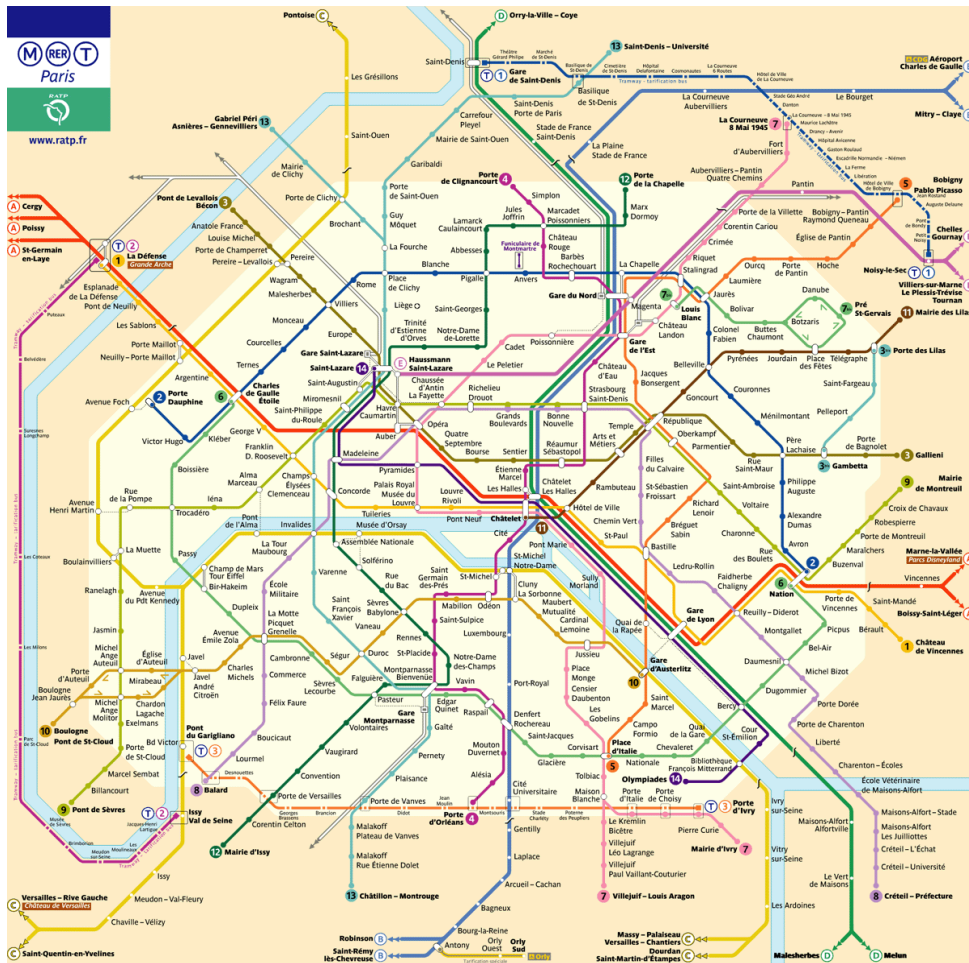

You absolutely need a ticket to travel in public transportation. It is called T+ ticket and enables the customers to travel on the whole of the metro, the RER within Paris, the RATP buses in Paris and the suburbs (except for lines with special fares, as shuttles from airports). You can also make connections on the metro and the RER within Paris and bus/bus or bus/tram connections. After validating it every time you board a bus or tram, you have an hour and a half between the first validation and the last validation to make one or more connections.

You can buy just a ticket (1,50€) or a carnet (10 tickets – 11,50€) from the tickets machines of the metro and RER stations, from the sales windows in certain bus terminuses, from shops approved by the RATP (mainly tobacconists) and from tickets machines in the stations.

For optimize your run, you could make your itinerary entering place of your departure and address of your destination at: <http://www.ratp.info/touristes/index.php?langue=en&rub=reperer&cat=itineraires>
